

Maxxetate® VA-1010 Vinyl Acetate Homo-polymer Emulsion – PVA Stabilized

Maxxetate VA-1010 is a medium viscosity polyvinyl alcohol stabilized vinyl acetate homo-polymer. It is designed for use as a base in interior wood glues, high-speed packaging and general-purpose adhesive applications. **Maxxetate VA-1010** is produced via a continuous process that provides superior product uniformity resulting in excellent formulation consistency.

TYPICAL PROPERTIES

pH	5.1
Total Solids	55%
Viscosity	2300 cP
Mechanical Stability	Excellent
Freeze-thaw stable	Yes
Borax Compatible	No
Weight/Gallon	9.0 lbs.
Tg	+30°C
Water Resistance	Fair

PERFORMANCE FEATURES

Superior Product Uniformity – Excellent Mechanical Stability – Plasticizer Compatible – Freeze-Thaw Stable

Let MCTRON Technologies raise your expectations.

McTron Technologies, LLC Technical Support Team is available to provide assistance with the formulation of all our products to optimally suit your specific needs.

McTron Technologies LLC Guarantee

If any product is defective in workmanship or materials, McTron Technologies, LLC will replace the product, or refund the full purchase price. This warranty is in place of all other warrants, expressed or implied, and all implied warrants of a product for an intended use shall be solely up to the user.
