

Maxxbreak® SE-030 Organo-Silicone Emulsion Defoamer

Maxxbreak SE-030 is an aqueous organo-silicone defoaming/antifoam emulsion formulated for a variety of industrial processing applications. **Maxxbreak SE-030** contains hydrophobic particles coupled with proprietary defoaming surfactants and spreading agents that facilitate penetration of the foam lamella, causing rapid drainage of the thin film and foam destabilization.

Maxxbreak SE-030 is a free flowing liquid and can be applied to the machine directly from the container. Optionally, for better control the product may be metered to a dilution line or prepared as a two to five percent stock solution before addition.

Typical Physical Properties	
Appearance	Off-White Opaque Liquid
Density	8.3 lbs./gal
Solubility in Water	Dispersible
Silicone Activity	30%

Benefits:

-  Far superior performance in comparison to conventional water based defoaming agents, especially at high operating temperatures.
-  **Maxxbreak SE-030** is free of petroleum oil and ethylene (bis) stearamide (EBS) found in conventional defoamers.
-  **Maxxbreak SE-030** is free of compounds suspected to contribute to the formation of chlorinated dioxins in conventional bleaching processes.

Regulatory Information and Clearances:

The components of **Maxxbreak SE-030** comply with the criteria established in FDA regulation 21 CFR§ 176.210, governing the use of defoaming agents in the manufacture of paper and paperboard intended for food contact.

Let MCTRON Technologies raise your expectations

McTron Technologies, LLC Technical Support Team is available to provide assistance with the formulation of all our products to optimally suit your specific needs.

McTron Technologies LLC Guarantee

If any product is defective in workmanship or materials, McTron Technologies, LLC will replace the product, or refund the full purchase price. This warranty is in place of all other warrants, expressed or implied, and all implied warrants of a product for an intended use shall be solely up to the user. McTron Technologies, LLC assumes no liability for consequential damages. Its liability shall in no event exceed the purchase price of materials supplied by it.
