

## MaxxThix® MT-1

MaxxThix MT-1 thickener is a high efficiency alkali swellable emulsion thickener for use in emulsion polymer compounds. Applications include textile coatings, paints, mastics adhesives, back thickeners for print pastes, and viscosity modifiers for pad baths. The rheology of MaxxThix MT-1 thickener is “short” and “buttery”.

### TYPICAL PROPERTIES

pH	3.0
Total Solids	35%
Viscosity	50
1% Viscosity (in Water@ pH 9)	2000 – 3500

### PERFORMANCE FEATURES

- Stirs directly into latex under low shear
- Develops viscosity upon addition of neutralizing base
- High efficiency
- Rheology suitable for coating or padding
- Good electrolyte (salt) stability
- Widely compatible with acrylic emulsions, styrene acrylic emulsions, and various other latex systems.
- Excellent defoamer thickener

### Let MCTRON Technologies raise your expectations.

McTron Technologies, LLC Technical Support Team is available to provide assistance with the formulation of all our products to optimally suit your specific needs.

### McTron Technologies LLC Guarantee

If any product is defective in workmanship or materials, McTron Technologies, LLC will replace the product, or refund the full purchase price. This warranty is in place of all other warrants, expressed or implied, and all implied warrants of a product for an intended use shall be solely up to the user. McTron Technologies, LLC assumes no liability for consequential damages. Its liability shall in no event exceed the purchase price of materials supplied by it.
