

MaxxThix® MT-107
Sodium Polyacrylate gum thickener

McTron **MaxxThix MT-107** is a highly effective methyl based sodium polyacrylate gum thickener, which can be used in a multitude of compounding arenas. Sodium polyacrylate gum thickeners are versatile, effective and efficient, aqueous polymer solutions designed to provide thickening, suspending, coating, and unique rheological properties for a host of applications. Uses include primary and secondary thickening of coatings, adhesives, grouts, dispersions, suspensions; thickening of liquid solutions applied by spray application; and as protective colloids and particle coatings in specialty products. Sodium polyacrylates are finished viscous solutions.

TYPICAL PROPERTIES

pH, 1% Aqueous	7.5-9.5
Total Solids	13-15%
Appearance	Hazy, light pale colored liquid
Solubility	Complete

PERFORMANCE FEATURES

Very good consistency – Economical – Unique rheological properties -

Suggested Uses

Textile Coatings – Asphalt – Mastics – Caulks – Adhesives – General Coating Formulas

Let MCTRON Technologies raise your expectations.

McTron Technologies, LLC Technical Support Team is available to provide assistance with the formulation of all our products to optimally suit your specific needs.

McTron Technologies LLC Guarantee

If any product is defective in workmanship or materials, McTron Technologies, LLC will replace the product, or refund the full purchase price. This warranty is in place of all other warrants, expressed or implied, and all implied warrants of a product for an intended use shall be solely up to the user. McTron Technologies, LLC assumes no liability for consequential damages. Its liability shall in no event exceed the purchase price of materials supplied by it.
