

MaxxThix® MT-4 Alkali Swellable Thickener

MaxxThix MT-4 thickener is a high efficiency alkali swellable emulsion thickener for use in emulsion polymer compounds. Applications include mastics and high viscosity compounds. The rheology of MaxxThix MT-4 thickener is short and buttery.

TYPICAL PROPERTIES

pH	3.0
Total Solids	35%
Viscosity, cP	50
Viscosity (1% in Water@ pH 9), cP	2000 - 3500

PERFORMANCE FEATURES

Stirs directly into latex under low shear - Develops viscosity upon addition of neutralizing base – High efficiency - Eliminates filler settling - Good electrolyte (salt) stability - Widely compatible with acrylic emulsions, styrene acrylic emulsions, and various other latex systems.

TYPICAL USES

Mastics – Caulks – Sealants – High Viscosity Compounds

Let MCTRON Technologies raise your expectations.

McTron Technologies, LLC Technical Support Team is available to provide assistance with the formulation of all our products to optimally suit your specific needs.

McTron Technologies LLC Guarantee

If any product is defective in workmanship or materials, McTron Technologies, LLC will replace the product, or refund the full purchase price. This warranty is in place of all other warrants, expressed or implied, and all implied warrants of a product for an intended use shall be solely up to the user. McTron Technologies, LLC assumes no liability for consequential damages. Its liability shall in no event exceed the purchase price of materials supplied by it.
